SUJAL JAISWAL

has successfully completed the online Professional Certificate

Microsoft Power BI Data Analyst

The role of a Power BI data analyst includes working closely with business stakeholders, collecting data, performing analyses, creating visualizations, & presenting actionable data-driven insights. Learners engaged with the key concepts of Power BI, transforming data into meaningful insights and creating compelling reports & dashboards. They learned to prepare data in Excel for analysis in Power BI, form data models using the Star schema, perform calculations in DAX, & more.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
